

STANDARD DEVIATION

LOG LINE

From physicist to terrorist, the story of Billy Cottrell.

SYNOPSIS - 100 WORD

Standard Deviation is the story of Billy Cottrell, a brilliant but troubled young physicist whose world collapses when the FBI arrests him as an eco-terrorist.

To the shock of his family and colleagues, Billy was caught sending anonymous e-mails to the Los Angeles Times claiming involvement in a series of arsons and the vandalism of over 130 SUVs in the Los Angeles area.

Billy's family and colleagues examine Billy's past to try to understand how such a promising young genius could be facing the rest of his life behind bars.
